

Autoclave & Sterilizer

Qingdao Innova Bio-Meditech Co., Ltd.

Add.: No. 176 Jufeng Road, 266199, Qingdao, China

Tel.: +86 532 8789 0634

Email: info@innobiomed.com

Web: www.innovabiomed.com

About us

Innova Bio-Meditech is one of the leading global providers of laboratory and medical devices. Firmly committed to our mission of “sharing innovative bio-meditech solutions with the world”, we are dedicated to innovation in the fields of Biology Project, Life Science, Pharmacy Industry and Medical Treatment.

Innova Bio-Meditech possesses a sound distribution and service network with business partners in North and Latin America, Europe, Africa and Asia-Pacific etc. We have built up a well established R&D, manufacture network with 3 centers in Beijing, Qingdao, and Shanghai. Inspired by the needs of our customers, we adopt advanced technologies and transform them into accessible innovation. This means constant effort and research, in order to more fully understand the developments of the market, produce constantly upgraded product ranges by adding new products year after year.

The passion for science

INOS-GE	16
— Electric heating and coal gas Heating	

Basic principle

Steam sterilizer is a high pressure vessel aim to sterilize liquids or devices by high pressure to increase the boiling point of water to more than 100 °C .

Application

Steam sterilizer is an instrument using pressure saturated steam for rapid and reliable disinfection and sterilization. Ideal for medical and health institutions, scientific research, agriculture fields for disinfection and sterilization of medical devices, dressings, glassware, solution culture medium etc.

Sterilizer for laboratory

INOL-X

INOLS-M

Sterilizer for production

INOPS-200D(S)(M)

INOY-150D(S)(M)

Horizontal steam sterilizer

Pulsating vacuum sterilizer is strictly designed and manufactured in accord with GMP technical Standard. It has passed ISO9001 quality management qualification standard and ISO13485:2003 Certificate of Quality Management System for Medical Devices.

The relevant data can be saved and printed automatically. Horizontal steam sterilizer is suitable for hospital, scientific research institute and other units to sterilize aseptic clothes, tools, culture medium, etc.

INOPS series

Features

- Horizontal square inner chamber + jacket structure, safety, heat preservation, and drying function.
- Disc type embedded gear + Electric lock door structure, safety and reliable.
- Door seals are pneumatic or self-expanding.
- Equipped with standard equipment verification interface.
- Pipeline system for the optimal design, SUS304 pipeline, clamp structure, quick assembly.
- FO value and temperature time double guarantee sterilization effect, with perfect sterilization records.
- With program selection, parameter setting, equipment operation, report processing and traceability functions.
- Three levels of authority management.
- Multiple safety protection (over-temperature, over-pressure protect).
- Sterilization process: fabric, equipment, liquid, BD, pressure testing, custom defined multiple procedures.

Technical parameters

Modle	INOPS-150D (S)(M)	INOPS-200D (S)(M)	INOPS-300D (S)(M)	INOPS-400D (S)(M)	INOPS-600D (S)(M)	INOPS-800D (S)(M)	INOPS-1000D (S)(M)	INOPS-1200D (S)(M)	INOPS-1500D (S)(M)

Design pressure	-0.1~0.3Mpa								
Design temperature	144 C								
Rated working pressure	0.245Mpa								
Working temperature	105-138 C								
Vacuum	-0.086Mpa								
Temperature equilibrium	<+2.0 C								
Water pressure	0.1-0.2Mpa								
Compressed air pressure	0.4~0.7Mpa								
Steam pressure	0.3-0.7Mpa								
Cycle time per batch	About 40-70 minutes								
Overall dimensions (LxWxH)(mm)	950x1120 x1760	1175x1120 x1760	1030x1300 x1900	1250x1300 x1900	1440x1310 x1900	1700x1310 x1900	1500x1440 x1950	1700x1440 x1950	2100x1440 x1950
Chamber size (LxWxH)(mm)	700x450 x480	450x480 x925	600x600 x780	600x600 x1000	610x910 x1190	610x910 x1450	680x1180 x1250	680x1180 x1450	680x1180 x1850
Steam consumption (kg)	≤14	≤16	≤18	≤25	≤30	≤35	≤42	≤50	≤60
Water consumption (kg)	≤190	≤190	≤200	≤200	≤210	≤220	≤200	≤200	≤200
Net weigh single/Double door (kg)	700/750	830/880	980/1050	1080/1150	1150/1250	1200/1300	380/1500	1530/1650	1680/1800

Note:

1. For examples 2 + 18 the first 2 is the power of the system, and the 18 is the power of the built-in steam generator. But the steam generator is optional.
2. Model "D" means single door, "S" means double, "M" means pulsation vacuum.

Configuration list

Application	Asepsis clothes, tools, culture medium	
Main process	Bowie dick cycle	
	Chamber leak test cycle	
	Sterilizing program for textiles and tools: (Loading → Preheating → Chamber vacuumize → Heating → Sterilizing → Drying → End)	
	Sterilizing program for liquid medium: (Loading → Preheating → Heating → Sterilizing → Slowly discharge and cooling → End)	
Main process	China standard GB150 pressure vessel	
Chamber	Material contact with products	SS316
	Inner surface finish	0.4μm
	Door	Double door automatic
	Seal	High quality silicone seal ring, temperature resistant 250 C, airtight seal
Jacket	Material	SS304
	Heat insulation materials and thickness	Aluminum silicate, T=30mm
	Wrapper materials	Aluminum sheets
Piping system	Vacuum pump	Water ring, low noise, high vacuum, easy maintenance
	Air filter	≤ um 0.22 Aseptic level filtration
	Pump	Low flow, high lift
	Pressure gauges	Class 1.6, stainless steel dial
	Solenoid valve	Reliable action, long life
Control system	Touch screen	Human-machine interactive program selection, parameter setting, easy operation
	Printers	Output of sterilization report
	Temperature sensor	High precision temperature conversion
	Pressure sensor	High precision temperature conversion
Others	Sterilization rack	SUS304 stainless steel, beautiful and durable
	Steam generator	Self-produced saturated steam, built-in steam generator
	Outer panel	Carbon steel spray, beautiful and generous

INOY series

Features

- Horizontal circular inner chamber + jacket structure, safety, heat preservation, and drying function.
- Disc type embedded gear + Electric lock door structure, safety and reliable.
- Door seals are pneumatic or self-expanding.
- Equipped with standard equipment verification interface.
- Pipeline system for the optimal design, SUS304 pipeline, clamp structure, quick assembly.
- Control system: HMI man-machine interface, touch screen + microcomputer.
- FO value and temperature time double guarantee sterilization effect, with perfect sterilization records.
- With program selection, parameter setting, equipment operation, report processing and traceability functions.
- Multiple safety protection (over-temperature, over-pressure protect).
- Sterilization process: fabric, equipment, liquid, BD, pressure testing, custom defined multiple procedures.

Vertical steam sterilizer

Application

Vertical pressure steam sterilizer equipped with heating system, microcomputer controlled system, over heat and over pressure protection system, which are reliable for the sterilizing effects, convenient of operation and energy conservation. Ideal for clinics, scientific research institutes and other organizations to sterilizer surgical instruments, fabrics, glasses, culture medium etc.

INOL-M

Touch screen display (Three times pre-vacuum)

Features

- Hand wheel translation and quick opening structure.
- Three times pre-vacuum and LED touch screen display.
- High quality stainless steel material.
- Microcomputer automatic control, arbitrary setting sterilization parameters.
- Safety interlocking device, standard test interface and self-expanding seal.
- With drying function.
- With automatic protection function: over temperature protection; over pressure self discharge protection; low water level protection.
- With stainless steel bucket or basket.
- External steam generator.
- Buzzer reminder after sterilization, automatic stop.
- Automatic discharge of cold air, automatic steam exhaust after sterilization.
- With internal printer.

Portable pressure steam sterilizer

Application

Portable pressure steam sterilizer uses pressurized saturated steam to sterilize such as medical devices, dressings, liquid medicine, glassware, etc. The utility model has good performance, simple operation, safety and reliability, easy to carry. Especially suitable for small medical treatment and laboratory.

INOS-R

Electric heating type (Regular)

Features

- High quality stainless steel material.
- Simple operation, safe and reliable.
- Electric heating mode.
- Auto release when over pressure; low water level protection; Preventing dry burning.
- Double scale indication pressure gauge.

INOS-D

Digital electric heating type

Features

- High quality stainless steel material.
- Simple operation, safe and reliable.
- Electric and gas heating both use.
- Auto release when over pressure.
- Double scale indication pressure gauge.

INOS-GE

Electric heating and coal gas heating type

Features

- All made of SUS304 stainless steel material, durable.
- Microcomputer control, digital display, sterilization temperature and time can be adjusted.
- Auto release when over pressure.
- Double scale indication pressure gauge, clear to read.
- Self-inflating type seal, safe and reliable.
- Simple operation, safe and reliable.
